

Buildings and Grounds- 2021

In-addition to routine lawn maintenance and snow removal at the Church, there were several one-time items completed in 2021. COVID restrictions slowed accomplishment of a few projects.

Completed projects:

- Completed storage shed on south side of Church. This will house the lawn equipment needed to maintain the lawn/ shrubs as well as snow equipment
- A new paver walkway was installed at the entrance to the kitchen in September by the Bradberry family members.
- Church boiler was inspected in June, no issues
- Dick and I replaced one of the basement sump-pumps in October
- The Tower Project will be covered under a separate report
- Continue to monitor COVID restrictions and impact on Church activities
- Fall leaf/ debris removal occurred in November, Thanks to Ralph for helping out.
- Fire extinguishers were checked/ repaired/ replaced
- Outside spot lights were repaired adding evening security light near entrances
- Repaired lawn after Lupini construction vehicles were removed.
- Led Stewardship committee pledge program for 2022
- Repaired thermostat in the Fellowship hall. Many thanks to Dick for help and tools!
- Moved curbs for winter snow removal

Items to address in 2022

- Paint outside entrances
- Paint curbs in the spring
- Repair screens over basement windows
- Replace broken window in basement
- Replace furnace filters
- On-going project-Church tower repair
